

MINA CLASSIC

EXCEPTIONAL PERFORMANCE IN COMPACT DESIGN Mina Classic brings together the best of Dalla Corte's professional technology in a compact, perfectly engineered platform. Ideal for contemporary coffee corners, bars, and premium residential spaces. At the heart of Mina are our most advanced technical solutions: thermal stability, industrial-grade components, and a standard cool-touch steam wand ensuring consistent performance.

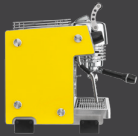

THE PROGRAMMABLE PROFILE Mina Classic is engineered to deliver a seamless and intuitive experience. The pre-set flow profile ensures absolute consistency in the cup, enabling flawless and repeatable results with every extraction.

AUTOMATED PROFILING & REPLICATION The system regulates water with micrometric precision, applying constant tolerances to a fixed profile. The integrated flow meter ensures precise water dosing, storing ideal extraction curves for automatic replication through the onboard electronics.

TAILORED AESTHETICS External panels can be customized through a curated selection of wood, metal, and glass finishes, combining matte, gloss, or transparent effects. This aesthetic versatility is designed to integrate effortlessly into sophisticated interior projects while maintaining a distinctive and harmonious look.

dimensions (w x h x d)	385 x 385 x 410 mm
weight	33 kg
max power	2850 W
voltage	230/240 V 50-60 Hz
